

XL Performance Nozzle

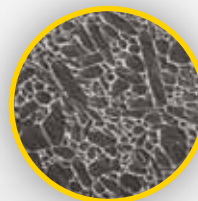

XL Performance Nozzles

are now manufactured in two proven materials, **BP200 SiAlON** and **tungsten carbide**. These nozzles increase production while reducing overall costs.

Tungsten Carbide and BP200 SiAlON

- New knurled design and gall-resistant aluminum thread.
- Also available in our popular polyurethane jacket and metal design.
- Increased production.
- Standard air requirements.
- Single piece liner construction.

Microstructure of BP200 SiAlON

Elongated grains provide increased toughness over competitive lightweight ceramic nozzles.

A blast nozzle design that works harder so you don't have to!

For more information, please call 800 662 2131
or e-mail k-trvr.service@kennametal.com.

- Thread style: 1-1/4-11-1/2 N.P.S.M.
- Lightweight BP200 SiAlON liner.
- Aluminum jacket.
- Aluminum threads.
